WOOD PLASTIC  
COMPOSITE DECKING

塑木复合材料 产品目录

## MEIDIAN (Wood-Plastic Composite)

WPC is workable for:

Outdoor Decking Floor, Outdoor Railing and Fencing, Patio Furniture, Pergola, Flower Box,  
Staircase and Pavilion. It is ideal material for beautifying home, garden and public works.

## 美典木塑材料 MEIDIAN (Wood-Plastic Composite)

WPC is workable for:

Outdoor Decking Floor, Outdoor Railing and Fencing, Patio Furniture, Pergola, Flower Box, Staircase and Pavilion. It is ideal material for beautifying home, garden and public works.

### Advanges of Wood Plstic Composite

Natural Wood Te×ture, High Strength, Clean, Elegance

Easy to Work, Eco-Friendly, Ideal deco material for outdoors

Water-proof, Humidity-proof, Acid Base, Termite Protection

High density, Resistant, No Rotting, Non-deformation

Durable Temperature between -40 to +60 Centi Degree

No Painting, No Glue and Low Maintainence

UV Protection, Stable Color

Fully Environmental, Recyclable, Saving Forest Resource

## 美典塑木 MEIDIAN (Wood-Plastic Composite)

Zhejiang Meidian New Material Co., Ltd is established in 2003, which is located at No.3636, Shushan Road, Wu×ing District, Huzhou City, Zhejiang Province of China. Our factory is the High and New Technology Enterprise, covering with 25,000 sq meter. We are the leading manufacturer of Wood Plastic Composite, with strong ability of designing, researching and developing of WPC profiles. Annual production is 20,000 tons. We are certified with ISO9001-2008 International Quality Management System and ISO14001:2004 International Environmental Management System. Our WPC is tested and authorized by Intertek Shanghai Office with USA ASTM standard and EU CEN standard.

We are one of suppliers of composite decking flooring for Beijing Olympic Forest Park in 2008, Shanghai Expo in 2010 and Guangzhou Asian Games in 2010.

## Co-extrusion decking

Co-extrusion decking floor has solid, hollow 2 big kinds of product, apply to average household respectively and the business place of crowd dense.

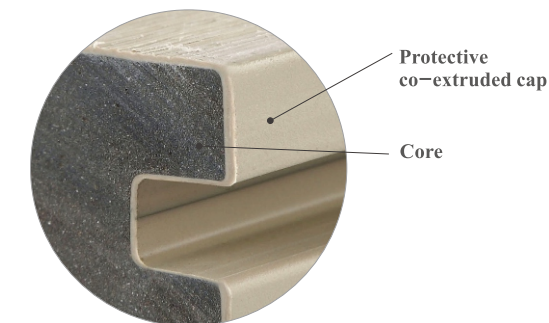

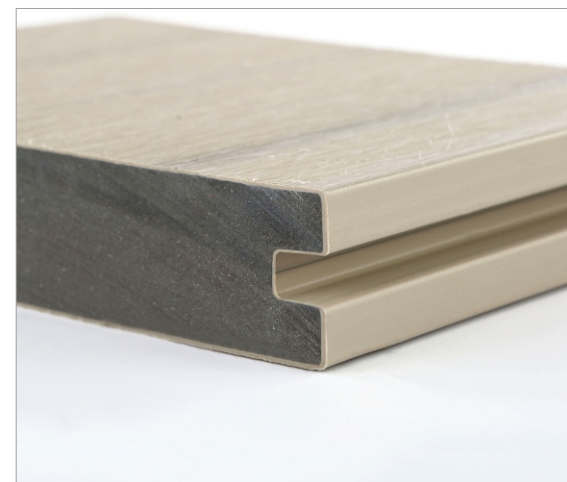

In each of the subtle grooves, all the polymer composite protective layer 360 - degree full - covering technology.

Avoid mildew, water cracking, discoloration, deformation and warping defects of traditional solid wood, preservative wood, common outdoor profile and other products.

Meidian plastic wood co-extrusion products have solid wood color changes and texture, polymer protective layer 360-degree full coverage technology. While comprehensively enhancing the product strength, we also ensure that the product can withstand the severe test of outdoor environment and avoid various defects of traditional solid wood and anti-corrosion wood products. The rich color selection of the whole color system further strengthens its high-end status in the field of outdoor floor, so as to adapt to different cultural backgrounds worldwide, develop new products and meet different demands of customers.

Co-extrusion decking covered with a high polymer that completely encapsulates the board in an impermeable layer of protection from fading, staining, mildew, and scratching.

## 颜色 | COLOR

We provide 8 normal colors for you choice. Special color can be customized. The similarity of colors can be 90%.

C-1 沙白色 (Sand)

C-2 古木色 (Antique)

C-3 柠檬黄 (Lemon)

C-4 柚木色 (Teak)

C-5 紫檀色 (Red sandalwood)

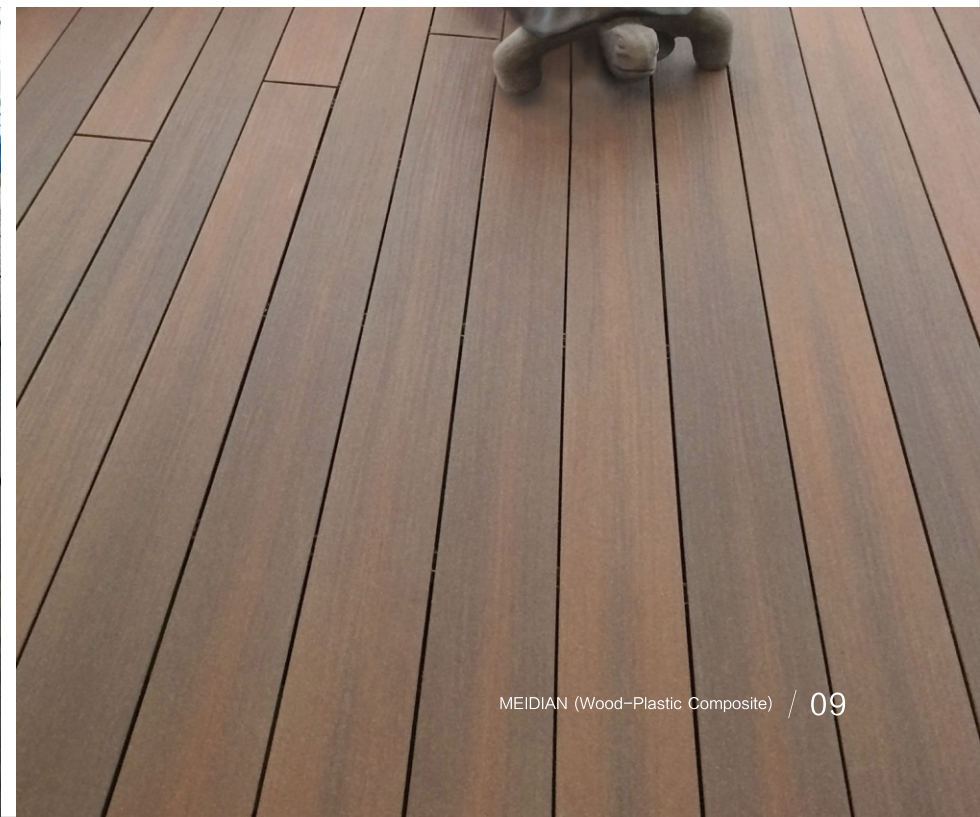

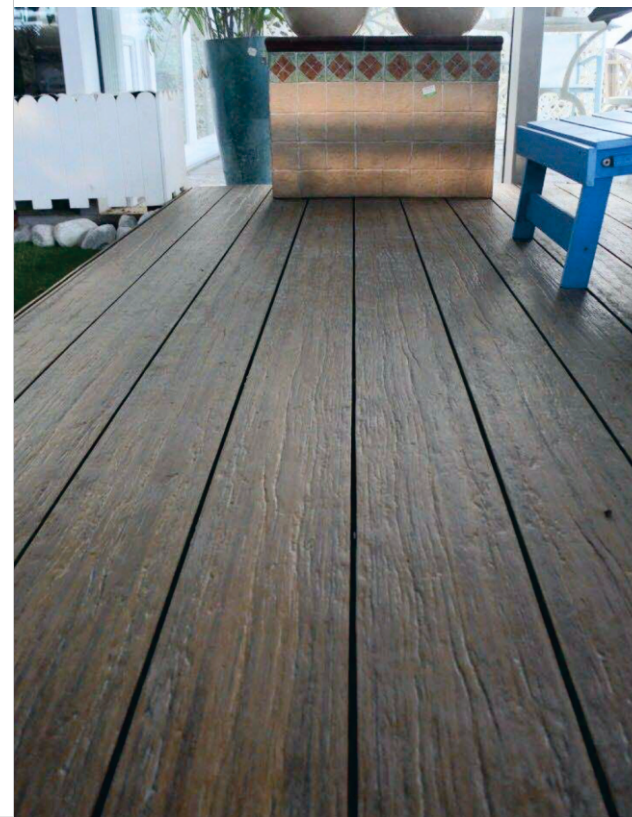

C-6 银灰色 (Silver gray)

C-7 浅灰色 (light gray)

C-8 木炭色 (Charcoal)

## 3D Wood Grain decking

3D wood grain decking is a revolutionary products to traditional WPC.

The embossing process didn't from "thermo print" but "pressure print" so this wood grain can stay at least 8-10 years.

It keeps plastic crust so the surface is more hard and absorb less water.

Scratch will not work on the surface because of the hard surface, water/oil/wine stain will not stay on the surface as well.
